

M. Rohith Venkat

BTech Computer Science Engineering

Indian Institute of Technology, Tirupati

✉ rohithvenkatmutyala@gmail.com  [GitHub Profile](#)

 [Portfolio](#)

Profile Summary

Computer Science Engineering student passionate about leveraging technology for social impact and sustainable development. Experienced in developing applications that address accessibility challenges and improve quality of life. Seeking to contribute technical skills toward building eco-friendly solutions for health and sanitation problems in developing regions.

Education

B.Tech. Computer Science Engineering	2023 - 2027
Indian Institute of Technology, Tirupati	CGPA: 7.55
Senior Secondary	2023
The Board of Intermediate Education	97.6%
Secondary	2021
State Board	99.9%

Technical Skills

- **Programming Languages:** C/C++, Python, Java, JavaScript, Kotlin
- **Web Development:** HTML/CSS, ReactJS, NextJS, ExpressJS, NodeJS
- **Tools & Platforms:** Git, Unity, Firebase, MySQL, Jupyter Notebook, Google Colab
- **Operating Systems:** Linux, Windows

Relevant Projects

Health & Accessibility Solutions

- **Food Path** - Health awareness application
 - Developed interactive visualizations showing impact of food choices on body organs
 - Created educational interface to promote healthy eating habits and wellness
 - Technologies: React.js, ExpressJS, NodeJS, JavaScript
 -  [GitHub Repository](#)
- **chromeX** - Accessibility Chrome Extension
 - Built comprehensive accessibility tool for differently-abled web users
 - Implemented voice-controlled navigation with speech recognition technology
 - Designed intuitive interface allowing users with limited mobility to interact with web content
 - Technologies: JavaScript, HTML, CSS, Chrome Extension API, Speech Recognition API
 -  [GitHub Repository](#)

Community-Focused Applications

- **Online Exam Conducting System**

- Designed platform specifically optimized for rural areas with limited connectivity
- Focused on accessibility and low-bandwidth performance for underserved communities
- Technologies: Java JDK, NetBeans, MySQL
-  [GitHub Repository](#)

- **Online Voting Portal App**

- Developed secure voting application ensuring privacy and fairness in election processes
- Prioritized equitable access to democratic processes for all users
- Technologies: Kotlin, XML, Firebase
-  [GitHub Repository](#)

Portfolio Highlights

Technology for Social Impact

My portfolio focuses on creating technological solutions for social challenges, with particular emphasis on:

- Accessibility tools for underserved populations
- Health education and wellness applications
- Low-resource-optimized software for developing regions
- Community engagement platforms

Relevant Skills & Experience

- Experience developing applications optimized for low-bandwidth environments
- Understanding of accessibility needs and implementation techniques
- Interest in sustainable technology solutions for environmental challenges
- Strong foundation in full-stack development with focus on practical implementations

Key Coursework

- Data Structures & Algorithms
- Artificial Intelligence
- Database Management Systems
- Software Engineering
- Human-Computer Interaction

Interests & Values

- Sustainable technology development
- Public health innovation
- Rural development solutions
- Environmental conservation
- Social entrepreneurship
